WHAT IS ONC EHR AND HEALTH IT CERTIFICATION?

The Office of the National Coordinator for Health Information Technology (ONC) Health IT Certification Program is a voluntary certification program to provide for the certification of health IT standards. Certified EHR and Health IT technology gives assurance to purchasers and other users that an EHR system or module is capable of offering certain technological capability, functionality, and security features defined by ONC. CHN Tech Solutions LLC has received certification for the Health IT Modules identified below.

Disclaimer: This Health IT Module is compliant with the ONC Certification Criteria for Health IT and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

- **Developer Name:** CHN Tech Solutions, LLC
- **Product Name:** Integrated Care EHR
- **Version:** 3
- **Certification Number:** 15.05.05.3133.CHTS.01.00.1.221213
- **Certification Date:** December 13, 2022
- **CHPL link:** <https://chpl.healthit.gov/#/listing/11067>
- **Criteria Certified:**
 - Clinical Processes:**
 - 170.315(a)(2) Computerized provider order entry – laboratory
 - 170.315(a)(5) Demographics
 - 170.315(a)(14) Implantable device list
 - 170.315(a)(15) Social, psychological, and behavioral data
 - Care Coordination:**
 - 170.315(b)(1) Transitions of care
 - 170.315(b)(10) Electronic health information export
 - Clinical Quality Measures (CQM's):**
 - 170.315(c)(1) Clinical quality measures (CQMs) – record and export o
 - Privacy and Security:**
 - 170.315(d)(1) Authentication, access control, authorization
 - 170.315(d)(2) Auditable events and tamper-resistance
 - 170.315(d)(3) Audit report(s)
 - 170.315(d)(4) Amendments
 - 170.315(d)(5) Automatic access time-out ▪ 170.315(d)(6) Emergency access

- 170.315(d)(7) End-user device encryption
- 170.315(d)(8) Integrity
- 170.315(d)(9) Trusted connection
- 170.315(d)(12) Encrypt authentication credentials
- 170.315(d)(13) Multi-factor authentication

Patient Engagement:

- 170.315(e)(3) Patient health information capture

Health IT Design and Performance:

- 170.315(g)(3) Safety-enhanced design
- 170.315(g)(4) Quality Management System
- 170.315(g)(5) Accessibility-centered design
- 170.315(g)(6) Consolidated CDA creation performance
- 170.315(g)(7) Application access – patient selection
- 170.315(g)(9) Application access – all data request
- 170.315(g)(10) Standardized API for patient and population

services

Electronic Exchange:

- 170.315(h)(1) Direct Project

• **CQMs certified:**

- CMS22 Preventive Care and Screening: Screening for High Blood Pressure and Follow-up Documented
- CMS69 Preventive Care and Screening: Body Mass Index (BMI)
- CMS122 Diabetes: Hemoglobin A1C Poor Control
- CMS124 Cervical Cancer Screening
- CMS125 Breast Cancer Screening
- CMS130 Colorectal Cancer Screening
- CMS138 Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention
- CMS165 Controlling High Blood Pressure

• **Relied Upon Software**

EMR Direct Interoperability Engine 2017 ○

Authy version 24.9.2 Two Factor Authentication

- **Additional Types of Costs:** The CHN Tech Solutions LLC service is licensed to customers on a subscription or transaction basis. Software as a service (SaaS). Software updates for ONC compliance are provided at no cost. User fees are all-inclusive. Fees for accessing local HIE content will be determined by the HIE. Also exchanging data with state immunization systems may require additional setup and testing. Lab integration is included. Interfacing with in-house lab equipment may involve additional fees and software depending on the equipment manufacturer. EDI clearinghouse services along with statements and eligibility fees will depend on the service provider the customer selects to work with. Credit card processing fees will be the responsibility of the customer.
